

The **PDG Privacy Door Guard** is designed to ensure in-room privacy in various settings, including hospitality, dormitory, apartment, and residential applications. It enables occupants to restrict access to their room while discreetly identifying visitors by allowing the door to open slightly. The PDG is crafted to meet modern building codes and is rated for use on fire-rated openings, providing the perfect combination of safety and convenience. Installation is a breeze, and our easy-to-use design makes it simple for anyone to operate.

- Provides enhanced in-room privacy
- Listed for use on fire rated openings
- ADA Compliant
- Zinc die-cast body and latch
- Allows door to open 4°
- Silicone pads protect door and reduce noise
- Easy to install and operate
- Includes sheet-metal screws, machine screws and rivet nuts (rivet nut tool not included)
- Non-listed model available (#PDG)
